

**San Juan Basin Regional Science Fair
2017 Scientific Review Committee Roster
for Local Committees (School or District wide)**

The San Juan Basin Regional Science Fair requires all school and district level science fairs to appoint a local Scientific Review Committee (SRC) of at least three people. The SRC must include at least one biomedical scientist (Ph.D., MD, DVM, DDS, DO, nurse) and one science teacher. When animal research is involved, one member must be familiar with proper animal care procedures. The SRC must review and approve projects involving restricted areas of research **before data collection begins**. Neither the Adult Sponsor, the Designated Supervisor, or the Qualified Scientist who oversees a specific project, or a student's parent, are permitted to serve on the SRC reviewing that specific project. See the International Science and Engineering Fair rules at www.societyforscience.org for more information about Scientific Review Committees.

Name of School or District _____

SRC Chairperson: Mr./Mrs./Ms./Dr. _____

CIRCLE: Biomedical or Behavioral Scientist Science Teacher Other

Degree(s) and/or Qualification: _____

Institution Affiliation: _____

Phone: _____ e-mail: _____

SRC Member: Mr./Mrs./Ms./Dr. _____
